HISTO

Date:

→ All cell organells and their functions
→ Epitheliums and their examples
→ Bone, with classification, example
→ Name the cells of connective tissue
  ↳ Resident cell, migrant cell
→ Functions of resident and migrant cell
→ Example of Hyaline, Elastic and Fibrocartilage
→ Histology of thyroid gland
→ Glands, classification, Examples
→ Name the cells of pituitary gland

EMBRYO

→ 8 weeks
→ Derivatives of Ecto, endo and mesoderm
→ Result of Fertilization ? (Dr Faukh)
  ↳ langmans (1st week k last page pe 4 points likhy hain)
→ Notochord, Notochordal plate
→ Placental and fetal circulation (Dr Faukh)
→ development of CVS, dev of skeletal system
→ derivatives of Aortic arches (Dr Faukh)
→ How many pairs of somites (38 pairs)
→ Incus and malleus formed from 1st pharyngeal arch
→ stapes formed from 2nd ph- arch
→ Muscles of pharyngeal arches
→ Nerve supply of Ph- arches
→ Dev of Tongue, Face
→ Dev of Thyroid and parathyroid Gland

Date:

General B.D

Examples, Classification

HEAD & NECK

→ All tabels of Head and Neck (KLM)
→ muscles of mastication
→ muscles of Laynx & Phaynx
→ Muscles of soft palate

① levator palatine
② Palato glossus
③ Palato phayngeous
④ Muscular Uvulae
⑤ Tensor palatine ⟶ mandibular nerve

} Phayngeal Plexus

All muscles of phaynx ⟶ Nerve supply ⟶ Vagus
except (Stylophayngeous) ⟶ C.N IX

→ Branches of facial Artery :-
Ascending palatine, tonsillar branch, submental, Glandular Inferior labial, Superior labial, Lateral nasal, Angular

→ External Carotid Branches :-
sup thyroid, Ascending phayngeal, lingual, facial, occipital, posterior auricular, Maxillary, superficial temporal

→ Intrinsic & Extrinsic muscles of Tongue
→ Triangles

RC

Date:

→ Anterior and posterior triangles of Neck
→ Contents of All triangles
→ Muscles of Eye
→ Paranasal Sinus
    ↳ absent at birth

four paranasal sinus :
maxillary sinus, frontal sinus, ethmoid sinus and sphenoidal sinus

NEUROANATOMY

→ Names of Ascending and Descending Tracts
→ Function of lateral spinothalmic tract
→ Memorise the table of Tracts including their functions (BA)
→ CSF (cerebro spinal fluid) formed in choroid plexus
→ Cerebrospinal fluid pathway

Lateral Ventrical → Foramen monro
↓
Third Ventricle → cerebral aquedact
↓
4th Ventricle → Foramen Luschka and Magendie
↓
Subarachnoid space → Arachnoid Vill and then to venous drainage of brain
